***Drawings***

The drawings are objected to because element 48 is not shown.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended.

The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

Claims 3-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3, line 3, "them" is unclear as to which elements the Applicant is referring to. In claim 8, line 4, and claim 19, line 6, it appears that the "," after the word

Art Unit: 3643

“two” should be deleted. In claim 9, line 7, “the fixture” should be changed to – the second fixture--. In claim 15, line 4, the phrase “and sized and shaped” is unclear as to which elements the Applicant is referring to. In claim 17, lines 1 and 2, “the shoes” lack prior antecedent basis in the claims.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, are rejected under 35 U.S.C. 102(b) as being anticipated by Johannesson 6,357,387.

Johannesson teaches an implement for milking animals which is structurally similar to the Applicant's claimed apparatus. The device includes a fixture 3a for receiving and holding the shell having the liner retained therein. The puller is considered to be the pulsator which causes the liner to be alternately pulled and pushed relative to the shell. As for claim 2, the normal operation of the pulsator causes it to move relative to the texture for stretching the liner.

***Allowable Subject Matter***

Claims 3-14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 3643

Claims 15-19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
